

December 15 - 17: Beacon in the Winter Sky

Our yearly special holiday weekend.

An Astronomer Looks for the Christmas Star: In this first ever program to be produced entirely by members of the Friends of Arlington's Planetarium, we explore various natural phenomena that could have been the basis for the Biblical account of the Christmas Star.

Season of Light: The winter constellations, why we have seasons, the Sun's path across the sky throughout the year, the Earth's tilt and orbit around the Sun, and holiday customs around the world.

Both programs shown together on Saturday, Dec 16 at 7:30 pm & Sunday, Dec. 17 at 1:30 and 3:00 pm. + an extra **free program** for members on Friday at 7:30.

“Winter Stargazing Tips & Tricks”:
a Presentation by *Dr. Alice Monet*
on Saturday at 6:30.

Admission: \$3 for children (≤ 12) and seniors (≥ 60), \$5 for adults.

For tickets and more information, go to
<http://friendsoftheplanetarium.org>.
